Did you know?

- Borrowing power from an adjoining booth is NOT permitted. Sharing your neighbour's power may overload the circuit.
- Check the rating nameplate on the back or bottom of your equipment/device to determine your total electrical needs.
- Order 24-hour outlets if you require your power to remain energized overnight (i.e. for refrigerators, freezers, aquariums, etc.).
- All equipment/devices must be approved for use by a recognized certification agency (i.e. CSA, ULC). Approval markings can be found on the rating nameplate located on the back or bottom of the equipment/device.
- All equipment/devices must have a 3-wire grounded cord, minimum of #14 gauge wire.
- A Ground Fault Circuit Interrupter (GFI) must protect all 120 volt electrical equipment/devices within 6 feet of a water/liquid source.

What else do you offer?

- In addition 15 Ft extension cords are available for rent if an outlet has also been ordered.
- 15 Ft extension cords are available for rent if an outlet has also been ordered.

Which electrical outlet do I need?

To determine your electrical needs, simply add together the wattage of each device that will require power in your booth. You will find a nameplate located on the back or bottom of each device, showing the wattage information. The total wattage indicates which outlet to order.

For example, if a laptop requires 400 watts, a monitor requires 150 watts and a cell phone charger requires 50 watts, you will need a total of 600 watts. Option 1 is the correct choice.

1. 1500 Watt, 12 amp, 120 volt outlet with 2 plugs
Examples include a laptop, computer monitor, cell phone charger, television or printer.
2. 1500 Watt, 12 amp, 120 volt outlet with 2 plugs, 24 hours
For equipment/devices requiring continuous power, such as a small household fridge or freezer.
3. 1800 Watt, 15 amp, 120 volt outlet
Examples include a hair dryer, curling iron or toaster oven.
4. 2400 Watt, 20 amp, 120 volt outlet
Examples include a popcorn maker, hot plate or industrial coffee maker.

Do you offer 208 volt electrical services?

Yes. See the attached Electrical & Lighting Order Form for standard 208 volt electrical services up to 60 amps. Other voltages and amps are available upon request. Please check the nameplate on your equipment to confirm voltage, amps/watts/hp/kw and phase. Contact SHOWTECH at least three weeks prior to the event's move-in date for quotations.
